SPECIALISED FACIAL TREATMENTS

DEEP CLEANSE		R 600
45 MIN - Oil reducing treatment ideal for teenage, breakout prone and congested skins. Includes extractions.		
AQUA FACIAL		R 800
45 MIN - A hydrating and mechanical deep cleanse. Ideal for teenage, dehydrated and congested skin.		
DERMAPLANNING		R 600
45 MIN - A minimally invasive, painless treatment that shaves away the top layers of the skin, removing dead skin cells and "peach fuzz" using a scalpel.		
REJUVAPEN NXT MICRONEEDLING		R 1700
60 MIN - A FDA approved microneedling device stimulating collagen, scar revision, wrinkle reduction, texture correction, pore refinement and pigmentation improvement.		
GREEN PEEL FRESH UP		R 1100
45 MIN - The quick beautifier for a fresh appearance & slower aging process. Immediately visible brighter & fresher skin. Suitable for all skin types.		
GREEN PEEL ACTIVE		R 1400
45 MIN - For a visibly more even complexion, vitality & regeneration. For the treatment of hyperpigmentation, melasma & scarring. Visible peeling is experienced.		
GREEN PEEL CLASSIC		R 1700
45 MIN - Body treatment only. Regeneration & renewal of body pigmentation, scarring & stretch marks.		

CHEMICAL PEELS

LACTIC 20% / 40%		R 600
30 MIN - A superficial AHA chemical peel for the improvement of dehydration, dryness, sensitivity, rosacea and reduction of redness.		
XPERT PEEL		R 600
45 MIN - A cocktail chemical peel indicated for mild acne treatment and photo-damage, leaving the skin smoother, firmer and fresher looking.		
GLYCOLIC 20% / 35%		R 600
45 MIN - Ideal for reducing the signs of aging, improving skin dullness and uneven skin tone.		

GLYCOLIC 20% + KOJIC 5%		R 850
45 MIN - An introductory chemical peel for the treatment of hyperpigmentation and uneven skin tone.		
GLYCOLIC 50% + KOJIC 5%		R 1050
45 MIN - A resurfacing treatment indicated for moderate hyperpigmentation, melasma, scar revision, pore reduction and aging-related concerns.		
JESSNER / MODIFIED JESSNER		R 850
45 MIN - A broad spectrum peel for the improvement of skin tone, texture and luminosity. A preparatory peel for mild photoaging, hyperpigmentation and breakout-prone skin.		
SAMA PEEL		R 850
45 MIN - Indicated for comedogenic, moderate to cystic acne, post-acne scarring, seborrheic dermatitis, hyperpigmentation and pore reduction.		
LIGHTENING PEEL		R 1300
45 MIN - A depigmenting agent, melanogenesis inhibitor and lightening effect.		
TCA 15% / 20%		R 1300
45 MIN - Progressive penetration peel for anti-aging, hyperpigmentation, melasma and scar revision. Visible peeling is experienced.		
COSMELAN PEEL		POR
The gold standard depigmentation method designed for melasma, post-inflammatory hyperpigmentation and sun damage.		
DERMAMELAN INTIMATE PEEL		POR
A depigmentation and anti-aging treatment for the genital-perineal area, inner thighs, groin, mons pubis, and perianal area)		

ALMA CLEARLIFT LASER

The Alma ClearLift is the most comprehensive Q-Switched Nd:Yag treatment solution available. The treatment addresses skin imperfections, hyperpigmentation, melasma, skin refinement and anti-aging. Dermaplanning is included in the Alma ClearLift Facial Treatments. Safe and effective for all skin types. A skin assessment and consultation is done prior to treatment.
